

Obsidian Series: OB-5424RP-WV-00 NanoFilter™

Front Projection Panel

Product type: Front Projection Panel, Ultra-Wide viewing angle, Lightweight rigid foam-core

Dimensions: 61cm width, 137cm height, 6mm thick.

Weight: 3.0Kg

Product Description: The premium Obsidian Series Tile offers unparalleled front projection performance utilizing Obsidian's Nanofilter™ Technology. Suitable for a wide range of ambient light conditions, Model 5424RP-WV provides an ultra-wide angle viewing with market leading brightness uniformity while maintaining outstanding contrast, colour saturation and ambient light rejection to achieve spectacular colours, image quality and overall viewing experience for all viewers and audiences, no matter where or how large they are.

Recommended applications: Premium Commercial/Retail/Rental displays where high contrast performance is essential. Nanofilter™ ambient light rejection technology allows for a wide range of lighting conditions to be managed with ease.

Product Variations: OB-5424WP-WV-00 ['Wallpaper' 1mm thick, flexible sheet alternative of the same technology]

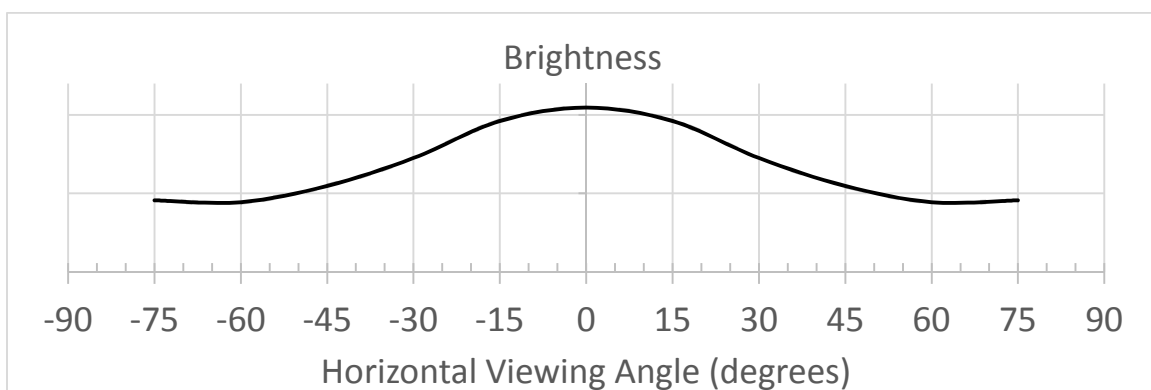

Recommended Projectors: The Obsidian Series with NanoFilter™ best suited for select LCD projectors. *(restrictions apply)*

Contact Obsidian for more details & for a recommendation for your application.
