

Obsidian Infinite Screen/Projector Package

Product type: Premium Enhanced Contrast ALR Front Projection Screen/Projector Package

Available Sizes: 90" – 115" diagonal in 16:9 aspect ratio.

Product Description: Utilizing our most advanced proprietary Nanofilter Technology™, Obsidian Infinite provides the highest available level of ambient light rejection and is supplied with the Obsidian LNF6000B-1 nanofilter projector. Obsidian Infinite enables vivid colours and deep blacks. Now you can enjoy movies in a wide range of lighting conditions throughout your home.

Recommended applications: Open-Concept Spaces & Home Theaters. Obsidian Infinite offers ALR performance with superb contrast and vivid colours. Obsidian Infinite achieves our highest contrast performance and will significantly deepen black levels even in home theaters with ambient lighting.

Required Projectors: Obsidian Infinite must be paired with an Obsidian Nanofilter Projector (eg: LNF6000B-1).

Mounting methods: No assembly is required. The Obsidian Infinite screen is delivered as a foam-backed panel in sizes of 90", 100", 110" and 115" diagonal. A stylish and durable narrow-bezel black anodized frame is included. This panel format comes ready-to-hang on French cleats (also included). It completely and permanently eliminates wrinkles, yet is able to flex during transport to pass through stairways and tight corners.

Obsidian Projectors are designed to accommodate ceiling mounting with most universal projector mounts capable of supporting a minimum of 20lb (8kg).

Options: Custom screen sizes are available. Curved contour option is available.
